

The new generation of gut health ingredients

Soledad Gurovic CSO

www.futurebiome.com

The problem

90% of People globally don't get enough fiber.

Only **5%**

of the US population meets fiber intake recommendations.

70%

of dietary fiber consumed comes from processed food sources with low health benefits.

Source: Furman D et al 2019 Nat Med 25:1822-32

Our Solution

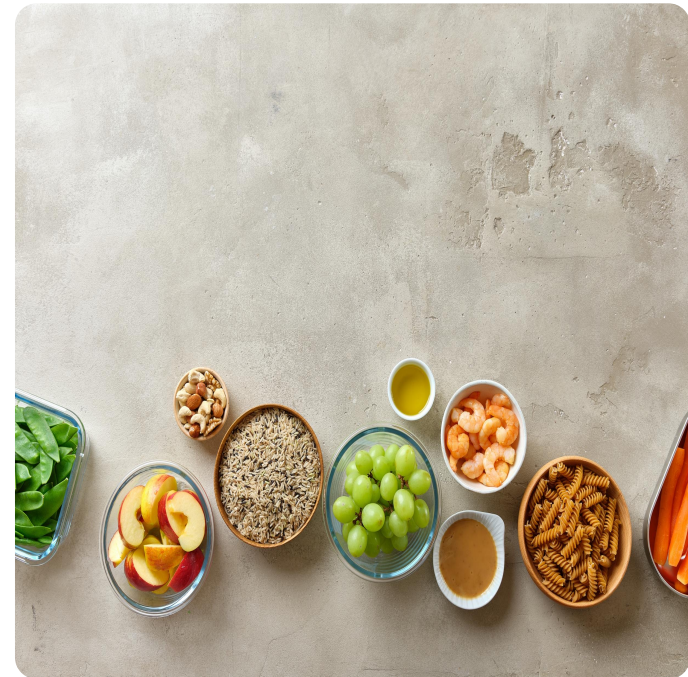

Why fungi?

- **Low dose** compared to other plant-based prebiotics.
- **Customizable:** different strains for different market segments.
- **More sustainable:** No soil needed.

Our solution

Our disruptive Prebiotic Fiber

- 20x lower dose
- Non GMO
- Vegan
- Safe and tolerable
- Gluten free

Competition

Additional benefits against competition leader

Improves Digestive wellness
